

## LED FLOOR 109

### DESCRIPTION:

Powered by 9\* 10 watt 5in1(red, blue, green, amber and white) LEDs The LED FLOOR 109 is suitable for front floor lighting, back Cyc lighting and special effect lighting. Multiple units can be daisy chained for ease of set up.

**FLICKER FREE OPERATION** Many of the lower cost led fixtures will produce lines or 'flicker' on video footage as they are dimmed. This fixture uses high frequency PWM dimming to avoid interaction with the shutter in a video camera.

**LOW NOISE** The LED PAR 1024 uses an ultra quiet fan for cooling.

### SPECIFICATIONS & FEATURES

- Input voltage: AC 100V-240V/50-60HZ
- Output voltage: DC24V
- Consume: 90W
- Lamp Type: LED(10W)
- Lamp Spec: 5-IN-1 LED 9PCS(RGBAW)
- Constant current driver: 500mA
- Life span: 50000-100000 hours
- Control Signal: DMX512
- Control mode: stand alone/ sound activated
- Channel: 4CH, 5CH, 9CH, 10CH
- Function Effect: dimmer, strobe, gradual change, sound activated
- Beam Angle: 45° (15°)
- Cooling mode: Natural Convection
- Protection rate: IP65
- Anti-electricity intension: 1.5KV
- Insulation Resistance: >MΩ
- Size: 627\*85.4\*135.7mm
- Net Weight: 3.5KG
- Color effect: RGBAW mixing
- Minimum order number 4 units

**PRICE PER UNIT \$405 inc. GST**
