

# MLQ1036 LED MOVING WASH

## FEATURES AND SPECIFICATIONS

- \* High power 10w led,36pcs RGBW 4-in-1 leds
- \* Average life: over 50000 hours
- \* Super bright high power leds, reflow soldering.
- \* New 4-in-1 technology,RGB+W color mixing,can make many colors
- \* PWM output,flicker free, no strobe for TV video or photo.
- \* LVS DMX model setting inside.
- \* Well tried by DMXter4RDMtm, run stable and unanimous in all kinds of DMX signal.
- \* Color changing,strobe,Dim 0-100%,speed adjustment,etc.
- \* Pan:540°, Tilt: 270°
- \* Built in programs,fade.
- \* Dmx512/Auto run/Master Slave/Sound activated
- \* Dmx channels: 14chs
- \* LCD DISPLAY
- \* The head of light is made by die-casting aluminium
- Body color: black
- \* Protection rate: IP20
- \* DMX Cable (3-pin or 5-pin) 1pc
- Power Cable 1pc
- \* Electronic:
- \* Power consumption: 280w
- \* Volt: 100-240V 50-60 Hz
- \* Certification: CE, RoHS
- \* Size: L33×W22.5×H380cm
- \* N.W: 8.0KG

## DESCRIPTION:

One of the brightest LED washed currently availbl

e. The MLQ 1036 uses high output 10 watt LEDs each containing Red, Blue, Green and White components. 14 channels of dmx control are used to control the light and give rise to millions of colours and a wide range of effects. The operational menus in the light are easy to navigate with a large LED screen that is easy to see.

**FLICKER FREE OPERATION** Many of the lower cost led fixtures will produce lines or 'flicker' on video footage as they are dimmed. This fixture uses high frequency PWM dimming to avoid interaction with the shutter in a video camera.

**LOW NOISE** The MLQ1036 is one of the quietest fixtures of its kind on the market.

**PRICE PER UNIT \$2100 inc. GST**
