

# DMX CONTROLLER Party 600

## DESCRIPTION:

The Party 600 is a DMX lighting controller specifically designed for moving lights and LED fixtures and can be used to control conventional lighting at the same time.

Programming moving lights and LEDs present challenges to the novice operator at the best of times. This unit retains the power you need for the most complex show while being well set out and logical in its operation. It also has preprogrammed effects and controls up to 120 fixtures.
